EDUCATION

CHENNAI UNIVERSIT
Bsc computer science
2023 - Now

SKILLS

- Back-End Technologies: Java
- Front-End Technologies: CSS
- Database Management: SQL
- Frameworks: Django, Flask
- Version Control: Git
- Cloud Platforms: AWS
- Data Analysis: Pandas, NumPy
- Operating Systems: Linux
- Problem-Solving Skills
- Communication

LANGUAGES

Tamil

English

Hindi

PROFESSIONAL SUMMARY

Computer Science graduate with strong Python development skills, specializing in web applications, data analysis, and back-end development. Experienced in frameworks like Django and Flask, with additional expertise in database management and cloud platforms. Dedicated to delivering innovative solutions with a focus on quality and performance.

PROJECTS EXPERIENCE

PROGRAMMING LANGUAGES: PYTHON, JAVASCRIPT

- Created a dynamic web application that automates data collection from online sources using Python.
- Developed interactive web elements using JavaScript for improved user experience.

FRONT-END TECHNOLOGIES: CSS

- Designed responsive web pages using CSS to enhance visual appeal and functionality.
- Implemented custom animations and transitions using advanced CSS techniques.

DATABASE MANAGEMENT: SQL

- Designed and managed SQL databases to efficiently store and retrieve application data.
- Developed optimized SQL queries for improved performance and data management.

FRAMEWORKS: DJANGO, FLASK

- Created a blog application using Django with CRUD functionality.
- Developed a Flask-based API for data processing and visualization.
